

## Toner Cartridge Return Program

---

For more information on the Canon Toner Cartridge Return Program, [click here](#).

In 1990, Canon became one of the first companies to collect and recycle used copier toner cartridges. With the cooperation of our customers, Canon has collected more than 110,000 tons around the world.

Returned cartridges are sorted and put through the recycling and energy recovery process, producing plastics, metals and reconditioned parts that can be used in the manufacture of new cartridges and other products.

Canon appreciates customers who participate in this program. To participate in Canon's copier toner cartridge return program, please note that:

- Customers are not entitled to tax deductions or rebates for returned cartridges.
- This program may be modified or discontinued without notice.
- Canon only authorizes the use of this site to print labels or order boxes/labels to return Canon brand cartridges. Any unauthorized use may result in the return to sender at sender's expense.

"At the heart of Canon's commitment to the world community is the belief that we are building a better world for future generations."

-Yoroku Adachi, President and CEO, Canon U.S.A., Inc.
